INDEPENDENT AUDITORS' REPORT

August 24, 2007

To the Board of Education
Fowler Public Schools

Fowler, Michigan

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Fowler Public Schools as of and for the year ended June 30, 2007, which collectively comprise the School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the School District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Fowler Public Schools, as of June 30, 2007, and the respective changes in financial position thereof for the year then ended in conformity with U.S. generally accepted accounting principles.

In accordance with Government Auditing Standards, we have also issued a report dated August 24, 2007 on our consideration of Fowler Public Schools' internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

WEINLANDER FITZHUGH

To the Board of Education
Fowler Public Schools
August 24, 2007

The management's discussion and analysis and budgetary comparison as listed in the table of contents are not a required part of the basic financial statements but is supplemental information required by U.S. generally accepted accounting principles and the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management, regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Fowler Public Schools' basic financial statements. The combining and individual nonmajor fund financial statements and debt schedules are presented for the purpose of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and debt schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Weinlander Fitzhugh

FOWLER PUBLIC SCHOOLS
Management's Discussion & Analysis
For the Year Ended June 30, 2007

Our discussion and analysis of the Fowler Public School's financial performance provides an overview of the School District's financial activities for the fiscal year ended June 30, 2007.

Financial Highlights

The School District's net assets decreased by \$56,000 or 3%. Program revenues were \$599,000 or 13% of total revenues, and general revenues were \$4,050,000 or 87%.

The General Fund reported a positive fund balance of \$414,000.

Using this Annual Financial Report

This annual financial report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Fowler Public Schools financially as a whole. The District-wide Financial Statements provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. The fund financial statements provide the next level of detail. For governmental activities, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements look at the School District's operations in more detail than the district-wide financial statements by providing information about the School District's most significant funds – the General Fund, with all other funds presented in one column as nonmajor funds. The remaining statement, the statement of fiduciary net assets, presents financial information about activities for which the School District acts solely as an agent for the benefit of students. The following summarizes the presentation included in this annual financial report.

Management's Discussion and Analysis (MD&A) (Required Supplemental Information)

Basic Financial Statements

FOWLER PUBLIC SCHOOLS
Management's Discussion & Analysis
For the Year Ended June 30, 2007

Reporting the District as a Whole

The Statement of Net Assets and Statement of Activities

One of the most important questions asked about the School District's finances is, "Is the School District better or worse off as a result of the year's activities?" The Statement of Net Assets and the Statement of Activities report information about the School District as a whole and about its activities in a manner that helps to answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by private sector businesses. All of the current year's revenues and expenses are taken into consideration regardless of when cash is received or paid.

These two statements report the School District's net assets as a way to measure the School District's financial position. The change in net assets provides the reader a tool to assist in determining whether the District's financial health is improving or deteriorating. The reader will need to consider other nonfinancial factors such as property tax base, student enrollment growth, and facility conditions in arriving at their conclusion regarding the overall health of the School District.

Reporting the District's Most Significant Funds

Fund Financial Statements

The School District's fund financial statements provide detailed information about the most significant funds – not the School District as a whole. Some funds are required to be established by State law and by bond covenants. Other funds are established to help it control and manage money for particular purposes or to meet legal responsibilities for using certain taxes, grants, and other sources of revenue. The School District's two types of funds, governmental and fiduciary, use different accounting approaches as further described in the notes to the financial statements.

Governmental Funds

Most of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left remaining at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources available to spend in the near future to finance the School District's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the basic financial statements.

FOWLER PUBLIC SCHOOLS
Management's Discussion & Analysis
For the Year Ended June 30, 2007

Fiduciary Funds

The School District is the trustee, or fiduciary, for its student activity funds and scholarship funds. All of the School District's fiduciary activities are reported in separate Statement of Fiduciary Net Assets. We exclude these activities from the School District's other financial statements because the assets cannot be utilized by the School District to finance its operations.

District-wide Financial Analysis

The statement of net assets provides the perspective of the School District as a whole. Exhibit A provides a summary of the School District's net assets as of June 30, 2007 and 2006:

Exhibit A

	<u>Governmental Activities</u>	
	(in thousands)	
	<u>2007</u>	<u>2006</u>
Assets		
Current and other assets	\$ 976	\$ 1,098
Capital assets - net of accumulated depreciation	<u>2,446</u>	<u>2,540</u>
Total assets	<u>3,422</u>	<u>3,638</u>
Liabilities		
Current liabilities	606	574
Long-term liabilities	<u>1,192</u>	<u>1,384</u>
Total liabilities	<u>1,798</u>	<u>1,958</u>
Net Assets		
Invested in property and equipment - net of related debt	1,232	1,232
Restricted	93	85
Unrestricted	<u>299</u>	<u>363</u>
Total net assets	<u>\$ 1,624</u>	<u>\$ 1,680</u>

Exhibit A above focuses on net assets of the School District. The School District's net assets were \$1.62 million at June 30, 2007. Capital assets, net of related debt, totaling \$1.23 million compares the original costs, less depreciation of the School District's capital assets to long-term debt used to finance the acquisition of those assets. Most of the debt will be repaid from voter-approved property taxes collected as the debt service comes due. Restricted net assets of \$93,000 are reported separately to show legal constraints from debt requirements and legislation that limit the School District's ability to use those net assets for day-to-day operations.

FOWLER PUBLIC SCHOOLS
Management's Discussion & Analysis
For the Year Ended June 30, 2007

The \$299,000 in unrestricted net assets of governmental activities represents the accumulated results of all past years' operations. The operating results of the General Fund will have a significant impact on the change in unrestricted net assets from year to year.

The results of this year's operations for the School District as a whole are reported in the summarized statement of activities (Exhibit B), which shows the changes in net assets for the years ended June 30, 2007 and 2006.

Exhibit B

	<u>Governmental Activities</u>	
	(in thousands)

Increase (Decrease) in Net Assets	<u>\$ (56)</u>	<u>\$ (73)</u>

FOWLER PUBLIC SCHOOLS
Management's Discussion & Analysis
For the Year Ended June 30, 2007

As reported in the statement of activities, the cost of all of our governmental activities this year was \$4.7 million. Certain activities were partially funded from those who benefited from the programs (\$219,000) or by the other governments and organizations that subsidized certain programs with grants and categoricals (\$380,000). We paid for the remaining "public benefit" portion of our governmental activities with \$335,000 in taxes, \$3.7 million in State Foundation Allowance, and with our other revenues, such as interest and general entitlements.

The School District experienced a decrease in net assets of \$56,000. Key reasons for the decrease in net assets were from increases in a broad range of expenditures. The decrease in net assets differs from the change in fund balance and a reconciliation appears in the financial statements.

The School District's Funds

The School District uses funds to help it control and manage money for particular purposes. Looking at funds helps the reader consider whether the School District is being accountable for the resources taxpayers and others provide to it and may provide more insight into the School District's overall financial health.

The School District's governmental funds reported a combined fund balance of \$540,000 which is below last year's total of \$666,000. The schedule below indicates the fund balance and the total change in fund balance as of June 30, 2007 and 2006.

	<u>Fund Balance</u> <u>June 30, 2007</u>	<u>Fund Balance</u> <u>June 30, 2006</u>	<u>Increase</u> <u>(Decrease)</u>
General	\$ 414,000	\$ 546,000	\$ (132,000)
Special Revenue	33,000	35,000	(2,000)
Debt Service	93,000	85,000	8,000
Total	<u>\$ 540,000</u>	<u>\$ 666,000</u>	<u>\$ (126,000)</u>

- The General Fund decrease is attributable to an increase in expenditures from instruction and support services.
- The Special Revenue Funds decrease in fund balance reflects the increase in expenditures in the Cafeteria Fund which was the result of one-time expenditures to the food service budget for the 2006-2007 year.
- The Debt Service Funds increase in fund balance was minor and it reflects that revenues were greater than expenditures.

FOWLER PUBLIC SCHOOLS
Management's Discussion & Analysis
For the Year Ended June 30, 2007

As the graph below illustrates, the largest portions of General Fund expenditures are for salaries and fringe benefits. The School District by nature is a labor intensive organization.

	2007	2006	Percentage Change
<i>General Fund Expenditures by Object</i>			
Salaries and wages	\$ 2,616,000	\$ 2,505,000	4.0%
Fringe benefits	1,159,000	1,109,000	5.0%
Purchased services	375,000	367,000	2.0%
Supplies, materials and other	217,000	240,000	-10.0%
Capital outlay	89,000	16,000	456.0%
Total	<u>\$ 4,456,000</u>	<u>\$ 4,237,000</u>	<u>5.0%</u>

Expenditures are up \$219,000 or 5% over the prior year mostly due to an increase in salaries and wages, fringe benefits, purchased services, and capital outlay. The increase in purchased services was related to the increase in the price of utilities; which was mostly related to the increase in the cost of gas. This increase was slightly offset by decreases in supplies and materials and capital outlay. The increase in capital outlay is primarily the result of a new bus being purchased during the year.

FOWLER PUBLIC SCHOOLS
Management's Discussion & Analysis
For the Year Ended June 30, 2007

General Fund Budgetary Highlights

Over the course of the year, the School District revises its budget to reflect changes in revenues and expenditures. State law requires that the budget be amended to ensure that expenditures do not exceed appropriations. A schedule showing the School District's original and final budget amounts compared with amounts actually paid and received is provided in required supplemental information of these financial statements. Changes to the General Fund original budget were as follows:

- The overall change in budgeted revenues increased by approximately \$36,000 that resulted from minor changes from every category of revenue.
- Budgeted expenditures were increased by \$16,000 due to minor increases to a wide range of expenditures. The overall change was immaterial.
- There were no significant differences between final budget amounts and actual amounts.

Capital Assets

At June 30, 2007, the School District had \$2.4 million invested in a broad range of capital assets, including land, buildings, furniture, and equipment. This amount represents a net decrease (including additions and disposals) of approximately \$94,000 or 4%, from last year.

	<u>2007</u>	<u>2006</u>
	(in thousands)	
Land	\$ 50	\$ 50
Buildings	4,593	4,593
Equipment	1,051	1,031
Transportation equipment	<u>474</u>	<u>463</u>
Total capital assets	6,168	6,137
Less accumulated depreciation	<u>3,722</u>	<u>3,597</u>
Net capital assets	<u><u>\$ 2,446</u></u>	<u><u>\$ 2,540</u></u>

This year's additions of \$85,000 included the purchase of a new school bus and equipment. \$59,000 of additional debt was issued for these additions.

FOWLER PUBLIC SCHOOLS
Management's Discussion & Analysis
For the Year Ended June 30, 2007

Debt

At the end of this year, the School District had \$1.2 million in bonds and notes outstanding versus \$1.3 million in the previous year – a change of 8%.

	<u>2007</u>	<u>2006</u>
Bonds and notes	<u>\$ 1,205,000</u>	<u>\$ 1,298,000</u>

The School District's General Obligation Bond rating continues to be equivalent to the State's credit rating. The State limits the amount of general obligation debt that schools can issue to 15 percent of the assessed value of all taxable property within the School District's boundaries. If the School District issues "qualified debt," i.e., debt backed by the State of Michigan, such obligations are not subject to this debt limit. The School District's outstanding unqualified general obligation debt is significantly below the statutorily imposed limit.

Factors Expected to have an Effect on Future Operations

For the second year in a row, Fowler Public Schools had to utilize a portion of their fund balance to cover the shortfall in revenues. This occurred after four years of building up the fund balance. State funding has not kept up with increases in salaries, health insurance, the State controlled retirement fund, and utility costs, causing the decline in the fund balance. Student enrollment has been fairly constant, therefore limiting revenue increases. This prevents the district from covering inflationary or above inflationary expense increases. These two components, the lack of per pupil funding increases from the State along with stagnant enrollment, have required the district to use its fund balance in order to continue high quality programs for children.

In May 2007, the voters approved a one-mill Sinking Fund for five years, which will provide the district with funds to help with maintenance projects that have been deferred the past few years. This will lessen the burden on the General Fund. For 2008, the Board combined the positions of Superintendent and High School Principal. This will reduce expenses and allow available revenues to be channeled into the classrooms. Fowler Schools continues to seek other means to reduce district overhead expenses by sharing supervisor assignments with other districts and the intermediate school district. However, unless the Michigan Legislature takes action to increase funding to the schools or takes bold action to control ever increasing retirement and health insurance costs, Fowler and most other districts will continue to utilize their declining fund balances. This will have a significant impact on the educational programs the School District can afford to offer.

Requests For Information

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the District. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to:

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Fowler Public Schools (School District) conform to U.S. generally accepted accounting principles applicable to governments. The School District is considered to be a local government unit. The following is a summary of the significant accounting policies:

Reporting Entity

The School District is governed by an elected Board of Education. The accompanying financial statements have been prepared in accordance with criteria established by the Governmental Accounting Standards Board for determining the various governmental organizations to be included in the reporting entity. These criteria include significant operational financial relationships that determine which of the governmental organizations are a part of the School District's reporting entity, and which organizations are legally separate component units of the School District. The School District has no component units.

District-wide and Fund Financial Statements

The district-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. All of the School District's government-wide activities are considered governmental activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenue includes (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes, intergovernmental payments, and other items not properly included among program revenues are reported as general revenue.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the district-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

District-wide Statements – The district-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants, categorical aid, and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

FOWLER PUBLIC SCHOOLS
Notes to Financial Statements
For the Year Ended June 30, 2007

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

As a general rule, the effect of interfund activity has been eliminated from the district-wide financial statements.

Amounts reported as program revenue include (1) charges to customers or applicants for goods, services, or privileges provided and (2) operating grants and contributions. Internally dedicated resources are reported as general revenue rather than as program revenue. Likewise, general revenue includes all taxes and unrestricted State aid.

Fund-based Statements – Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the School District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, unrestricted State aid, intergovernmental grants, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be available only when cash is received by the government.

Fiduciary fund statements also are reported using the economic resources measurement focus and the accrual basis of accounting.

The School District reports the following major governmental funds:

General Fund – The General Fund is used to record the general operations of the School District pertaining to education and those operations not provided for in other funds. Included are all transactions related to the approved current operating budget.

Assets, Liabilities, and Net Assets or Equity

Deposits and Investments – Cash and cash equivalents include cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value.

FOWLER PUBLIC SCHOOLS
Notes to Financial Statements
For the Year Ended June 30, 2007

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Receivables and Payables – In general, outstanding balances between funds are reported as “due to/from other funds”. Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as “advances to/from other funds”.

Inventory and Prepaid Items – Inventories are valued at cost, on a first-in, first-out basis. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future fiscal years and is recorded as prepaid items in both district-wide and fund financial statements.

Capital Assets – Capital assets, which include land, buildings, equipment, and vehicles, are reported in the applicable governmental activities column in the district-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$2,000 and any assets susceptible to theft. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Costs of normal repair and maintenance that do not add to the value or materially extend asset lives are not capitalized. The School District does not have infrastructure-type assets.

Buildings, equipment, and vehicles are depreciated using the straight-line method over the following useful lives:

Buildings and improvements	15 to 50 years
Buses and other vehicles	8 years
Furniture and equipment	5 to 20 years

Compensated Absences – The liability for compensated absences reported in the district-wide statements consists of unpaid, accumulated annual and sick leave balances. The liability has been calculated using the vesting method in which sick leave amounts for both employees who are currently eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination are included.

Long-term Obligations – In the district-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net assets.

Fund Equity – In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Use of Estimates – The process of preparing the basic financial statements in conformity with U.S. generally accepted accounting principles requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

FOWLER PUBLIC SCHOOLS
Notes to Financial Statements
For the Year Ended June 30, 2007

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Property Taxes – For Fowler Public Schools’ taxpayers, properties are assessed as of December 31 and the related property taxes are levied and become a lien on July 1. The final collection date is February 28, after which uncollected taxes are added to the County delinquent tax rolls.

State Aid – For the fiscal year ended June 30, 2007, the State of Michigan adopted a foundation grant approach which provides for a specific annual amount of revenue per student based on a state-wide formula. The foundation is funded from state and local sources. Revenues from state sources are primarily governed by the School Aid Act and the School Code of Michigan. The Michigan Department of Education administers the allocation of state funds to school districts based on information supplied by the districts. For the year ended June 30, 2007, the foundation allowance was based on the average pupil membership counts taken in February and September of 2006.

The state portion of the foundation is provided primarily by a state education property tax millage of 6 mills and an allocated portion of state sales and other taxes. The local portion of the foundation is funded primarily by non-homestead property taxes which may be levied at a rate of up to 18 mills. The state revenue is recognized during the foundation period (currently the fiscal year) and is funded through payments from October 2006 – August 2007. The local revenue is recognized as outlined in Note 1 Basis of Accounting. Amounts receivable from the State of Michigan at June 30, 2007 relating to state aid is \$649,929.

The School District also receives revenue from the state to administer certain categorical education programs. State rules require that revenue earmarked for these programs be used for its specific purpose. Certain categorical funds require an accounting to the state of the expenditures incurred. For categorical funds meeting this requirement, funds received, which are not expended by the close of the fiscal year, are recorded as deferred revenue. Other categorical funding is recognized when the appropriation is received.

FOWLER PUBLIC SCHOOLS
Notes to Financial Statements
For the Year Ended June 30, 2007

NOTE 2 - BUDGETARY POLICIES AND DATA

The State of Michigan adopted a Uniform Budgeting and Accounting Act (Act) applicable to all local governmental entities in the state. The law requires appropriation acts to be adopted for General and Special Revenue Funds of school districts prior to the expenditure of monies in a fiscal year.

Fowler Public Schools follows these procedures in establishing the budgetary data reflected in the financial statements.

1. The School District's Superintendent submits to the Board a proposed budget prior to July 1 of each year. The budget includes proposed expenditures and the means of financing them.
2. A public hearing is conducted to obtain taxpayer comments.
3. Budgeted amounts are as originally adopted, or as amended by the Board throughout the year. Individual amendments were not material in relation to the original appropriations. Budgets are adopted to the functional level.
4. Appropriations lapse at year end and therefore cancels all encumbrances. These appropriations are re-established at the beginning of the following year.

A comparison of actual results of operations to the budgeted amounts (at the level of control adopted by the Board of Education) for the General Fund is presented as Required Supplemental Information.

During the year ended June 30, 2007, the School District incurred revenues and expenditures in certain budgetary funds that were in excess of the amounts appropriated as follows:

<u>Fund/Function</u>	<u>Total Budgeted Amount</u>	<u>Actual Amount</u>	<u>Budget Variance</u>
General Fund:			
<u>Revenue</u>			
State Sources	\$ 3,822,557	\$ 3,815,429	\$ (7,128)
<u>Expenses</u>			
Instruction:			
Added needs	317,921	317,927	(6)
Supporting services:			
Other supporting services	54,819	60,105	(5,286)
Other financing uses:			
Operating transfers out	106,080	106,541	(461)

FOWLER PUBLIC SCHOOLS
Notes to Financial Statements
For the Year Ended June 30, 2007

NOTE 3 – DEPOSITS AND INVESTMENTS

State statutes and the School District's investment policy authorize the School District to make deposits in the accounts of federally insured banks, credit unions, and savings and loan associations that have an office in Michigan; the School District is allowed to invest in U.S. Treasury or Agency obligations, U.S. government repurchase agreements, bankers' acceptances, commercial paper rated prime at the time of purchase that matures not more than 270 days after the date of purchase, mutual funds, and investment pools that are composed of authorized investment vehicles. The School District's deposits are in accordance with statutory authority.

At year-end, the School District's deposits and investments were reported in the basic financial statements in the following categories:

	<u>Governmental Activities</u>	<u>Fiduciary Funds</u>	<u>Total Primary Government</u>
Cash and investments	<u>\$ 303,419</u>	<u>\$ 82,212</u>	<u>\$ 385,631</u>

The breakdown between deposits and investments for the School District is as follows:

Deposits (checking and savings accounts, certificates of deposit)	\$ 223,510
Investments in interlocal agreement investment pools (i.e. MILAF with a weighted average maturity not to exceed 60 days).	162,093
Petty cash and cash on hand	<u>28</u>
Total	<u><u>\$ 385,631</u></u>

Interest Rate Risk

In accordance with its investment policy, the School District will minimize interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations.

Credit Risk

State law limits investments in commercial paper and corporate bonds to a prime or better rating issued by nationally recognized statistical rating organizations (NRSROs). As of June 30, 2007, the School District's investment in the pool was rated AAAM by Standard & Poor's, indicating excellent safety.

FOWLER PUBLIC SCHOOLS
Notes to Financial Statements
For the Year Ended June 30, 2007

NOTE 3 – DEPOSITS AND INVESTMENTS (CONTINUED)

Custodial Credit Risk – Deposits

In the case of deposits, this is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. As of June 30, 2007, \$150,871 of the School District's bank balance of \$250,871 was exposed to custodial credit risk because it was uninsured.

NOTE 4 – CAPITAL ASSETS

A summary of changes in governmental capital assets follows:

	Balance July 1, 2006	Additions	Disposals and Adjustments	Balance June 30, 2007
Assets not being depreciated:				
Land	\$ 50,000	\$ 0	\$ 0	\$ 50,000
Capital assets being depreciated:				
Buildings and improvements	4,592,766	0	0	4,592,766
Buses and other vehicles	463,289	64,386	53,795	473,880
Furniture and equipment	1,031,330	20,340	0	1,051,670
Subtotal	6,087,385	84,726	53,795	6,118,316
Accumulated depreciation:				
Buildings and improvements	2,787,393	96,020	0	2,883,413
Buses and other vehicles	378,928	24,769	53,795	349,902
Furniture and equipment	430,939	57,909	0	488,848
Subtotal	3,597,260	178,698	53,795	3,722,163
Net capital assets being depreciated	2,490,125	(93,972)	0	2,396,153
Net capital assets	<u>\$ 2,540,125</u>	<u>\$ (93,972)</u>	<u>\$ 0</u>	<u>\$ 2,446,153</u>

FOWLER PUBLIC SCHOOLS
Notes to Financial Statements
For the Year Ended June 30, 2007

NOTE 4 – CAPITAL ASSETS (CONTINUED)

Depreciation for the fiscal year ended June 30, 2007 amounted to \$178,698. The School District determined that it was impractical to allocate depreciation to the various governmental activities as the assets serve multiple functions.

NOTE 5 – INTERFUND BALANCES AND TRANSFERS

A summary of balances and transfers made during the year ended June 30, 2007 is as follows:

<u>Fund</u>	<u>Transfers In</u>	<u>Transfers Out</u>	<u>Receivable</u>	<u>Payable</u>
General fund	\$ 7,500	\$ 106,541	\$ 4,958	\$ 0
Special revenue:				
Cafeteria	742	0	0	4,958
Athletics	105,799	7,500	0	0
	<u>\$ 114,041</u>	<u>\$ 114,041</u>	<u>\$ 4,958</u>	<u>\$ 4,958</u>

Transfers and balances are used to reflect funding support for athletic salaries and benefits and also to cover expenses in the cafeteria fund.

NOTE 6 – RECEIVABLES

Receivables at June 30, 2007 consist of accounts (fees), intergovernmental grants and interest.

A summary of the intergovernmental receivable (due from other governmental units) follows:

State aid	<u>\$ 649,929</u>
-----------	-------------------

FOWLER PUBLIC SCHOOLS
Notes to Financial Statements
For the Year Ended June 30, 2007

NOTE 7 - LONG-TERM DEBT

The following is a summary of long-term debt transactions of the School District for the year ended June 30, 2007:

	Balance July 1, 2006	Additions	Retirements and Payments	Balance June 30, 2007	Amount Due Within One Year
Bonds and notes payable	\$ 1,298,028	\$ 59,055	\$ 151,684	\$ 1,205,399	\$ 161,860
Compensated absences	218,000	0	70,000	148,000	0
Total	<u>\$ 1,516,028</u>	<u>\$ 59,055</u>	<u>\$ 221,684</u>	<u>\$ 1,353,399</u>	<u>\$ 161,860</u>

Bonds and notes payable at June 30, 2007 are comprised of the following issues:

\$1,960,000, 1998 School Building and Site bonds due in annual installments of \$100,000 to \$175,000 through May 1, 2014; interest at 4.5% to 4.6%.	\$ 1,160,000
\$10,521, John Deere note payable due in annual installments of \$1,684 to \$2,432 through December 1, 2010; interest at 8.9%.	6,344
\$59,055, Citizens Bank note payable due in annual installments of \$19,055 to \$20,000 through June 1, 2009; interest at 4.9%.	<u>39,055</u>
Total bonds payable	<u>\$ 1,205,399</u>

Under the terms of the present contracts between the Fowler Public Schools Board of Education and the various employee associations, the School District is contingently liable for unused sick days. Each employee may accumulate various numbers of sick days and it must be paid to them upon retirement. The School District has also entered into a voluntary severance plan with certain School District employees. At June 30, 2007, the unused sick days and voluntary severance has been reflected in the district-wide financial statements in the amount of \$148,000.

FOWLER PUBLIC SCHOOLS
Notes to Financial Statements
For the Year Ended June 30, 2007

NOTE 7 – LONG-TERM DEBT (CONTINUED)

The annual requirements to amortize the bonds and notes outstanding as of June 30, 2007, including interest payments, are as follows:

<u>Year Ended June 30</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2008	\$ 161,860	\$ 55,453	\$ 217,313
2009	176,107	48,051	224,158
2010	172,432	40,002	212,434
2011	170,000	31,970	201,970
2012	175,000	24,150	199,150
2013-2017	<u>350,000</u>	<u>24,150</u>	<u>374,150</u>
	<u>\$ 1,205,399</u>	<u>\$ 223,776</u>	<u>\$ 1,429,175</u>

NOTE 8 – SHORT-TERM DEBT ACTIVITY

The School District issues state aid anticipation notes in advance of State of Michigan state aid payments, depositing the proceeds in its general fund. These notes are necessary because the School District's cash flow obligation to operating expenses precede the collection of state aid.

	<u>Beginning Balance</u>	<u>Issued</u>	<u>Redeemed</u>	<u>Ending Balance</u>
State Aid Anticipation Notes	<u>\$ 45,341</u>	<u>\$ 400,000</u>	<u>\$ 392,982</u>	<u>\$ 52,359</u>

NOTE 9 – RISK MANAGEMENT

The School District is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers' compensation), as well as medical benefits provided to employees. The School District has purchased commercial insurance for medical claims and participates in the SET-SEG risk pool for claims relating to workers' compensation, general liability, and property/casualty claims. Settled claims relating to the commercial insurance did not exceed the amount of insurance coverage in any of the past three fiscal years.

The SET-SEG shared-risk pool program in which the School District participates operates as a common risk-sharing management program for school districts in Michigan; member premiums are used to purchase commercial excess insurance coverage and to pay member claims in excess of deductible amounts.

FOWLER PUBLIC SCHOOLS
Notes to Financial Statements
For the Year Ended June 30, 2007

NOTE 10 - DEFINED BENEFIT PENSION PLAN AND POSTEMPLOYMENT BENEFITS

Plan Description – The School District participates in the Michigan Public School Employees' Retirement System (MPERS), a statewide, cost-sharing, multiple-employer defined benefit public employee retirement system governed by the State of Michigan that covers substantially all employees of the School District. The system provides retirement, survivor, and disability benefits to plan members and their beneficiaries. The Michigan Public School Employees' Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the system. That report may be obtained by writing to the system at 7150 Harris Drive, P.O. Box 30673, Lansing, MI 48909-8103.

Funding Policy – Employer contributions to the system result from the implementing effects of the School Finance Reform Act. Under these procedures, each school district is required to contribute the full actuarial funding contribution amount to fund pension benefits, plus an additional amount to fund retiree health care benefit amounts on a cash disbursement basis.

The pension benefit rate totals 16.34% for the period from July 1, 2006 to September 30, 2007 and 17.74% for the period from October 1, 2006 through June 30, 2007 of the covered payroll to the plan. Basic plan members make no contributions, but Member Investment Plan members contribute at rates ranging from 3% to 4.3% of gross wages. The School District's contributions to the MPERS plan for the years ended June 30, 2007, 2006, and 2005 were \$455,271, \$394,894, and \$355,722, respectively.

Postemployment Benefits – Under the MPERS Act, all retirees participating in the MPERS pension plan have the option of continuing health, dental, and vision coverage. Retirees having these coverages contribute an amount equivalent to the monthly cost for Part B Medicare and 10 percent of the monthly premium amount for the health, dental, and vision coverage. Required contributions for postemployment health care benefits are included as part of the School District's total contribution to the MPERS plan discussed above.

FOWLER PUBLIC SCHOOLS
Notes to Financial Statements
For the Year Ended June 30, 2007

NOTE 11 - GRANTS

The School District receives significant financial assistance from federal and state governmental agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the District's independent auditors and other governmental auditors. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable fund. Based on prior experience, the School District administration believes such disallowance, if any, would be immaterial.

NOTE 12 - ECONOMIC DEPENDENCY

The School District received approximately 90% of their General Fund revenue from the Michigan Department of Education. Due to the significance of this revenue source to the School District, the School District is considered to be economically dependent.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF THE FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Education
Fowler Public Schools
Fowler, Michigan

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Fowler Public Schools as of and for the year ended June 30, 2007, which collectively comprise the School District's basic financial statements and have issued our report thereon dated August 24, 2007. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Fowler Public Schools' internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Fowler Public Schools' internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Fowler Public Schools' internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the Fowler Public Schools' ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the Schools' financial statements that is more than inconsequential will not be prevented or detected by the Fowler Public School's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be presented or detected by Fowler Public Schools' internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Fowler Public Schools' basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under Government Auditing Standards.

This report is intended solely for the information and use of management, Board of Education, others within the entity and federal awarding agencies and pass-through entities and is not intended to be, and should not be, used by anyone other than these specified parties.

A handwritten signature in black ink that reads 'Weinlander Fitzhugh'.
